This chart illustrates the match rate of My School DC lottery applicants broken down by grade level and how many schools they selected on their application. For example, the match rate of 1st grade applicants who selected 9 schools on their application is 67%.

The general trend in all grades is that the more schools a student selects on the application, the better the chances are for a match. However, My School DC recommends that families only select schools on their applications that they would like their students to attend.
